

# MS. LISA FISCHER:

## Quotes on Lisa by other artists

“**Lisa Fischer** is a talent that comes once in a lifetime. Like Haley’s Comet, her brilliance is dazzling and brings light into the world.” — **Roberta Flack**

“**Lisa's** as powerful as the rest of the guys put together. She has an amazing power, energy, and projection. It's a killing part to sing and she really kills it”. - **Keith Richards**

"When I get out there on the stage with **Lisa** on *Gimme Shelter*... you know we've done it quite a few times but there's always that kind of moment when there's some kind of spontaneous combustion going and it's always a high point in the show for me" - **Mick Jagger**

"That's a powerhouse voice. I think of her as a star. She's a star." – **Sting**

“I met **Lisa** through **Luther Vandross**. She was part of his vocal backing group. I was, and am, impressed by her voice and moreover her unique way of how she uses it. Her range is most incredible with true flexibility that she makes look so very easy. She is one that was very easy to get to know and like, and she gives the best hugs!” — **Dionne Warwick**

“I have had the great pleasure of knowing and working with **Lisa Fischer** for so many years. Having seen her perform on such varied stages such as the Rolling Stones, her own solo records, and thankfully with me on my stage for a few years, I can honestly say she is one of the most superb artists I’ve have ever worked with. Her elasticity, grace, and voice is unmatched and unparalleled and I’m sure I share this sentiment with every musician that has ever heard her. I think she's a freak of nature . . . so incredibly versatile, so talented." - **Chris Botti**

"she's a brilliant entertainer, really funny, sings her butt off . . . she's the empress of that world . . ." - **Patti Austin**

“**Lisa Fischer** is one of the most beautiful people I know. As a friend, she is the utmost, and her humility about her massive gift is what makes you love her so much. What I love best about Lisa as a vocalist, she has always been supersonic with her range and vocal tone, as well as totally unique, like singing with two mics and playing between them with echo. I’d never seen any singer do that ever, and do it with perfection.” — **Brenda Russell**

“**Lisa** is THE SUPREME ROCK GEM STAR OF THE UNIVERSE! Raised up by **Luther Vandross** as his star backing singer into her own incredible solo career! Winning the GRAMMY on her first album with ‘How Can I Ease the Pain’! She is one of three living who have mastered the fifth high octave range — Shanice, Mariah, and **Lisa Fischer**. These three took the inspiration from Minnie Riperton and brought it to our current generation. And Lisa soars in any and all genres of music ... Tough Rock and Tender Soul. She is it!! And a marvelous person to boot. I’m her fan and producer.” — **Nārada Michael Walden**

“Singing the praises of **Lisa Fischer** ... Oh my, don’t get me started! No wonder the Rolling Stones, Luther Vandross, and everyone under the sun wanted to have Lisa on their records, on the road, and be part of her world. With an incredibly trained voice, amazing ears, and taste, she can sing anything and be in the moment of that style. But at the same time, she has her sound and her way of making every song she sings that much better. What’s not to love?!?! When we produced ‘Earth Voice’ at the Budokan in Tokyo in the early ’90s, we had a cast from the Heavens on stage ... James Ingram, Michael McDonald, Roberta Flack, Anita Baker, Brenda Russell, Gilberto Gil, Maxi Priest ... one legendary singer after the next ... and when Lisa came out and sang her hit, ‘How Can I Ease The Pain?’, needless to say, there was no following that performance! Count me in. I’m in her ‘#1 fan club, for sure!’” — **Lee Ritenour**
